

## **Dr. Pallavi Khatri**

### **Profile**

Dr. Pallavi Khatri is a professor, distinguished academician, researcher, and mentor with over two decades of experience in Computer Science and Engineering. She is currently serving as Professor at ITM University, Gwalior. Her expertise encompasses Cyber Security, Digital Forensics, Internet of Things (IoT), Artificial Intelligence, Machine Learning, Wireless Sensor Networks, Mobile Ad Hoc Networks, Cloud Computing, and Network Security.

She has successfully supervised multiple Ph.D. scholars and postgraduate dissertations, with research contributions in IoT security, digital forensics, machine learning, and wireless communication. Dr. Khatri has published an extensive number of research papers in IEEE, Springer, Scopus-indexed, and SCI/ESCI journals and conferences, authored numerous book chapters, and holds granted and published national and international patents.

Dr. Khatri is a Certified EC-Council Instructor (CEI), Certified Ethical Hacker (CEH), Palo Alto Networks Cybersecurity Academy Educator, AWS Cloud Academy Graduate, and Fortinet Network Security Expert. She is a Life Member of CSI, ISTE, and INSC.

She has organized numerous Faculty Development Programs, workshops, and short-term courses in Cyber Security, Artificial Intelligence, and Digital Forensics, while actively contributing to curriculum development, research collaborations, consultancy, and academic leadership. Her commitment to quality education, innovation, interdisciplinary research, and student mentoring has established her as a leading contributor to higher education and advanced research.
